6. Title of proposed action: Approval for the Notice of Intent to Commence Mining Operations and Mining and Reclamation Plan, Apex Mine			
7. Description: This operation is primarily underground mining to produce gallium, germanium, copper, zinc and silver. It is located at the site of the old Apex Mine and will consist of rehabilitating the old mine, continuing underground mining by the pneumatic fill method, crushing and screening ore on-site and hauling the ore off-site to a processing facility located on the Shivwits Indian Reservation. During operations, the company will also reclaim and process an existing mine dump containing 50,000 T of low-grade ore. After operations cease, the area will be reclaimed using acceptable methods.			
8. Land affected (Site location map required) (Indicate county) Township 43 South, Range 17 West, Sections 6 and 7; Township 43 S., Range 18 West, Sections 1 and 12, Washington County			
9. Has the city/county been contacted regarding necessary zoning & building permits? N/A			
10. Possible significant impacts likely to occur: Continued disturbance related to mining on eight acres indicated in #8 above. However, the majority of this site has been disturbed by mining in the past and was left unreclaimed. The current operation, with expected duration of 13 years, will result in reclamation of the area upon cessation of mining. Therefore, no significant impacts are likely to result.
